SMUN Procedure

A. Before Committee Begins

Delegates enter the committee room.

Placards are placed on desks.

Chair and Dias are introduced.

Attendance is taken through Roll Call.

B. Roll Call

The chair calls each country/portfolio.

Delegate responds:

“Present”

“Present and Voting” — means the delegate must vote on substantive matters.

C. Opening the Committee

The chair officially opens the committee.

The committee moves into the first procedural stage.

D. Setting the Agenda

Delegates propose which agenda/topic should be discussed first.

Motions are made and voted upon.

Once the agenda is set, debate begins on that topic.

E. General Speakers’ List (GSL)

Delegates are added to the Speakers’ List.

Each delegate gives a speech presenting their country's position.

Delegates can discuss the issue and propose broad solutions.

The Speakers' List continues until the Chair moves the committee into another form of debate.

F. Moderated Caucus

A delegate proposes a moderated caucus.

The motion must specify:

Total duration

Speaking time

Topic/sub-topic

If passed, the Chair calls on delegates one by one.

Delegates give short speeches focused specifically on the caucus topic.

G. Unmoderated Caucus

A delegate proposes an unmoderated caucus.

If passed, formal debate pauses.

Delegates can move around, negotiate, form blocs and discuss solutions.

They begin working on ideas and eventually prepare working papers.

H. Working Papers

Delegates collaborate to create proposed solutions.

Ideas are organized into clauses.

Working papers may be submitted to the Dias for review.

I. Draft Resolutions

A working paper that meets the committee's requirements can become a Draft Resolution.

It contains:

Preambulatory clauses

Operative clauses

Sponsors and signatories are identified according to the conference rules.

J. Introducing Draft Resolutions

The Chair introduces an approved draft resolution.

Sponsors may explain the proposed solutions.

Delegates can debate the resolution.

K. Amendments

Delegates may propose changes to a draft resolution.

Amendments can add, remove or modify operative content.

The committee considers and votes on amendments according to the rules.

L. Closing Debate

A motion can be made to close debate.

If passed, the committee moves into voting procedure.

M. Voting Procedure

The Chair explains the voting process.

Delegates vote according to the applicable rules.

Procedural and substantive voting may follow different requirements.

N. Resolution Outcome

If the required majority is achieved, the resolution passes.

If not, it fails.

The committee may then move to another resolution/topic depending on the conference procedure.

O. Closing the Committee

Once the committee's business is complete, the Chair moves to adjourn.

The committee is officially closed.
